Governance Institute of Directors (GloD) Membership

The Governance Institute of Directors (GloD) is the first organization in Iraq aims to implement corporate and banking governance for the public and private sectors.

The GloD derives its positioning from the strategic partnership with IFC / a member of the World Bank Group>

The GloD's membership is the ideal way to make the most benefit of the services, provided by international and local experts, in addition to other added features. It helps to develop the capabilities and skills that positively impact in guiding your institutions and elevating them to global levels and gives the professional character of your institutions according to international standards and benefiting from the benefits of governance after applying them to ensure its continuity for future generations and increase its profitability and activate its control and ensure an appropriate work environment through the distribution of roles and responsibilities.

Membership benefits:

- 1- Your membership will allow you to be familiar with the systems and rules of corporate governance that are appropriate for the Iraqi economic environment and according to the international standards.
- 2- The GloD seeks to help institutions by developing the higher departments' efficiency and their supporting staff.
- 3- Provide evaluation services of (the board of directors' effectiveness) of your institutions and with appropriate discounts according to the type of membership.
- 4- Members will have an influential role in the activities of the corporate governance network to develop the business leadership environment.
