Definition of the corporate governance (CG) :

In reference to the Organization for Economic Co-operation & Development OECD definition, we can define the corporate governance as it is a set of procedures and processes by which the institution is managed and controlled to achieve its objectives, and it includes the distribution of rights and responsibilities between the various parties to this institution and the identification of rules and procedures for decision-making in it.

What is the benefit that will accrue to your company from implementing corporate governance?

- Improving sustainability opportunities and facilitating its transmission to future generations
- Attracting finance and investment by increasing levels of disclosure and transparency
- Increasing the productivity and improve the performance through the distribution of tasks and responsibilities.
- Effectiveness the Management control environment and reduce operational costs.
- Improving the credibility and reputation of the company
- Institutionalizing family businesses
- Reducing risks for the institutes that applied practices of corporate governance
